Flux Labs Agency LLC

AI infrastructure that lets a company run on agents. Live in production, running our own company and two public brands.

PRESS ONE-PAGER
November 2026
Port St. Lucie, Florida

WHAT WE BUILD

Flux Network	Two linked private servers. Our own mini cloud.
Flux AI	Our gateway to the Claude API, with a budget gate before each call and a cost log after it.
Flux Mind	The shared memory every agent reads before it acts.
Flux MCP	A self-hosted tool layer. Writes need an explicit yes.
Agent control plane	Four founder approval gates: contacting a person, moving money, irreversible changes and switching on automation.
Client portal	Supabase-backed, live at fluxlab.agency/portal.

WHO IT'S FOR

Owner-led small businesses, reached today through two public brands. The infrastructure is the product, and it also runs the company itself.

Flux Labs
fluxlab.agency
Websites, Google Search, Google Maps and AI search.

Brand Fusion Solutions
brandfusion.solutions
AI employees: AI receptionist, speed-to-lead, reviews, back office and custom agents.

IN DEVELOPMENT

Flux Cloud IN DEVELOPMENT
Not shipped, not for sale.

Portal and task ledger search IN DEVELOPMENT
Algolia-powered search for the client portal and the agent task ledger, in development.
